Dear Friend,

It's been 7 years since the end of the Great Recession that cost our nation millions of jobs. While our economy is on the road to recovery, unemployment and underemployment remain great obstacles for families struggling to put food on the table, save for their children's education, keep up with mortgage payments, and looking for security in our workforce after long periods without employment. Our national employment outlook reflects the work still to be done in order to restore our nation's economic stability and the American Dream.

I am committed to combating unemployment here in the 2nd District. In line with my focus of putting Illinoisan's back to work, I've put together this guidebook to help folks gain access to critical federal and community resources to help with their job search. If you have any further questions, please do not hesitate to contact me by visiting my website at www.RobinKelly.house.gov or by phone 202-225-0773 (DC), or 708-679-0078 (Matteson).

Sincerely,

Robin L. Kelly
Member of Congress

The Office of Congresswoman Robin L. Kelly compiled the information included in this guidebook. The purpose of this guidebook is to highlight and explain opportunities for federal, state and local assistance for unemployed workers. This guide is not intended to be a comprehensive look at all assistance opportunities, rather it is meant to highlight those programs of interest to Illinois and the 2nd Congressional District. Detailed information can be found by contacting the appropriate federal or state agencies as the information is subject to change. Additional requirements and guidance may be published at the discretion of the relevant agencies.

Prepared by the Office of Congresswoman Robin L. Kelly

Unemployment Insurance, Benefits, and Services

Unemployment Insurance: Administered by the Illinois Department of Employment Security (IDES)

Unemployment Insurance (UI) is a state-operated insurance program designed to partially replace lost wages when you are out of work. The Illinois Department of Employment Security (IDES) collects unemployment insurance taxes from the state's liable employers and returns those dollars to eligible Illinois workers as unemployment insurance benefits. Applicants must have earned enough money in the past 18 months for Illinois to establish a weekly benefit amount. The temporary emergency income is provided to workers who are unemployed through no fault of their own and looking for work. The program ensures that if eligibility requirements are met, you will have some income for up to a maximum of 26 full weeks in a one-year period while you looking for a job. Unemployment Insurance does not protect against wage losses while absent from work due to illness or idle by choice.

Workforce Investment Act (WIA): administered by the Illinois Department of Commerce and Economic Opportunity

The Workforce Investment Act (WIA) combines federally funded job training programs in Illinois into a "workforce development" system where individuals can find a job or train for a new career. Services are provided through the state's one-stop delivery system, Illinois workNet Centers. Individuals who wish to apply for available training programs, or obtain other services, should visit the nearest IllinoisworkNet Center for assistance. WIA establishes three basic levels of employment and training services to eligible individuals. All adults (age 18 or older) are eligible to receive "core services". Additional "intensive services" are available to unemployed individuals who have been unable to obtain jobs through core services and those who are employed but need additional training services to reach self-sufficiency. "Training services" are also available for those who meet intensive services eligibility but were unable to find employment through those services. While the employment services and training programs available in each center may be somewhat different, they reflect the opportunities and needs of the Local Workforce Investment Area and are developed by a Local Workforce Investment Board.

Utilities Assistance Programs

Low Income Home Energy Assistance Program (LIHEAP): Administered by the Illinois Department of Commerce and Economic Opportunity (DCEO)

The Low Income Home Energy Assistance Program (LIHEAP) is designed to help eligible low income households pay for winter energy service. LIHEAP clients with the listed utility providers have the option of choosing between the traditional LIHEAP Direct Vendor Payment (DVP) plan or the new Percentage of Income Payment Plan (PIPP). Under this program the eligible clients will pay a percentage of their income, receive a monthly benefit towards their utility bill, and lower their overdue bills for every on-time payment they make by the bill due date.

The Illinois Home Weatherization Assistance Program (IHWAP): Administered by the Illinois Department of Commerce and Economic Opportunity (DCEO)

The Illinois Home Weatherization Assistance Program (IHWAP) is designed to help reduce the energy costs for low income households by making their homes more energy efficient. Energy conservation actions that can be funded through IHWAP include furnace repair and replacement, air sealing, electric base load reduction (lighting and refrigerator), and window and door weatherization. A maximum of \$7,500 can be spent on each eligible client's home for energy-related weatherization and repair work.

Lifeline and LinkUp Telephone Assistance Program: Administered by the Illinois Commerce Commission (ICC)

Low-income consumers may qualify for assistance to help pay for installation of telephone service and monthly charges for local phone service through the Lifeline and LinkUp Telephone assistance programs. Lifeline Assistance provides discounts (up to \$10 per month) for qualified telephone customers. A deposit may be required unless the consumer voluntarily chooses toll blocking that will prevent outgoing long distance calls. LinkUp provides additional benefits of up to \$15 on installation charges for telephone service to eligible Illinois program participants. Currently the State program does not provide monthly benefits.
