The Health Equity and Accountability Act of 2016
Section-by-Section

TITLE I—DATA COLLECTION AND REPORTING

Overall. Creates consistency in terminology by replacing “linguistic data” and “primary data” with “primary spoken and written language” throughout the Title.

Section 101. Amendment to the Public Health Services Act.
Builds on PHSA Section 3101 by requiring HHS health-related programs to collect demographic data on the race, ethnicity, sex, primary written and spoken language, disability status, sexual orientation, gender identity, and socioeconomic status of participants. Establishes the requirement that the disclosure of any such data shall be voluntary and optional for participants and prohibits compelled disclosure of any such data as a condition of participating in any HHS program. Requires the HHS Data Council to develop a national plan for the culturally competent and appropriate collection of these data through both HHS programs and surveys. Requires HHS to provide technical assistance to its divisions for collecting and analyzing these data. Authorizes appropriations for these purposes. Establishes Epidemiology Centers and other data collection support for Native American tribes.

Section 102. Elimination of prerequisite of direct appropriations for data collection and analysis.

Section 103. Collection of demographic data by the Social Security Administration.
Requires the Social Security Administration to collect, analyze, and report data on the race, ethnicity, primary written and spoken language, and disability status of applicants for Social Security account numbers or benefits. Authorizes appropriations for this purpose.

Section 104. Revision of HIPAA claims standards.
Requires HHS to revise the Health Insurance Portability and Accountability Act (HIPAA) regulations to use the new standards for the collection of data on race, ethnicity, primary written and spoken language, sex, and disability status developed under PHSA Section 3101.

Section 105. National Center for Health Statistics.
Extends authorization for appropriations for National Center for Health Statistics (NCHS) activities to 2016.

Section 106. Oversampling of Asian American and Native Hawaiian or Pacific Islander populations in federal health surveys.
Requires NCHS and others to develop an ongoing and sustainable national strategy for oversampling Asian American, Native Hawaiian or Pacific Islander, and other underrepresented populations in national surveys and to issue a progress report within two years. Authorizes appropriations for this purpose.

Section 107. Geo-access study.
Requires SAMHSA to conduct a geographic study on shortages and preparedness of specialty mental health providers to offer culturally and linguistically appropriate, affordable, and accessible services, and to report the findings to Congress.
Section 108. Race, ethnicity, and primary written and spoken language data collected by the Federal Government.
Requires all agencies that have collected race, ethnicity, or primary written and spoken language data to submit annual reports to HHS, which will analyze the data and submit an annual report to Congress.
Based on HR 3090, section 306

Section 109. Data collection and analysis grants to minority-serving institutions.
Authorizes grants through the National Institute for Minority Health and Health Disparities and the Office of Minority Health to minority-serving institutions to access and analyze race, ethnicity, and, where possible, other health disparity data.
Based on HR 3090, section 310

Section 110. Standards for measuring sexual orientation and gender identity in collection of health data.
Amends PHSA Section 3101, regarding the collection of health disparity data by HHS surveys and programs, to include sexual orientation and gender identity.

Section 111. Standards for measuring socioeconomic status in collection of health data.
Amends PHSA Section 3101, regarding the collection of health disparity data by HHS surveys and programs, to include socio-economic and disability status.

Section 112. Safety and effectiveness of drugs with respect to racial and ethnic background.

Section 113. Improving health data regarding Native Hawaiians and other Pacific Islanders
Requires NCHS to develop and implement an ongoing and sustainable national strategy for identifying and evaluating the health status and health care needs of Native Hawaiians and other Pacific Islanders (NHOP). Requires an NCHS preliminary health survey in order to identify the major areas and regions in which Native Hawaiians and other Pacific Islanders reside, a progress report after two years, and a study and report by the Institute of Medicine. Authorizes appropriations for these purposes.

Section 114. Clarification of simplified administrative reporting requirement.

TITLE II—CULTURALLY AND LINGUISTICALLY APPROPRIATE HEALTH CARE

Section 201. Definitions
Adds definitions contained in Section 202 to the Public Health Service Act.

Section 202. Amendment to the Public Health Service Act.
Makes findings on language disparities, and adds definitions related to the delivery of culturally and linguistically appropriate health care services to the Public Health Service Act, reinforces federal agency requirements pursuant to E.O. 13166, sets national standards for culturally and linguistically appropriate services in health care for any programs, activities and entities covered under ACA section 1557, creates a center for cultural and linguistic
competence within the Agency for Healthcare Research and Quality, authorizes innovation grants in cultural and linguistic competence, and expands research on cultural and linguistic competence.

Section 203. Pilot Program for Improvement and Development of State Medical Interpreting Services.
Authorizes competitive grants for states to design, implement, and evaluate statewide programs to provide on-site medical interpreting services under Medicaid. Statewide programs leverage technology for scheduling and payment of in-person interpreter services and ensure better access to interpreter services for small and rural providers.

Section 204. Training Tomorrow’s Doctors For Culturally and Linguistically Appropriate Care: Graduate Medical Education.
Amends the Direct Graduate Medical Education and Indirect Medical Education programs to include cultural competency training, education, and training in linguistically appropriate service delivery to count in the determination of full-time equivalency.

Section 205. Federal Reimbursement for Culturally and Linguistically Appropriate Services Under the Medicare, Medicaid, and State Children’s Health Insurance Programs.
Establishes a demonstration program to promote access to competent language services for Medicare beneficiaries with limited English proficiency by providing reimbursement of culturally and linguistically appropriate services under Medicare. Clarifies the applicability of Title VI and ACA Section 1557 to Medicare Advantage and prescription drug plans. Increases the federal reimbursement rate for language services under Medicaid and the Children’s Health Insurance Program.

Section 206. Increasing Understanding of and Improving Health Literacy.
Establishes grants to improve healthcare for patient populations that have low functional health literacy.

Section 207. Assurances for Receiving Federal Funds.
Requires programs, activities, and entities described in Section 1557(a) of the Affordable Care Act, to ensure the right of LEP individuals to receive access to quality health care through adequate education and training of clinical and support staff and other measures.

Section 208. Report on federal efforts to provide culturally and linguistically appropriate healthcare services.
Directs HHS to commission a report from the Institute of Medicine that describes federal efforts to ensure that all individuals with limited English proficiency have meaningful access to health care and health care-related services.

Section 209. English for Speakers of Other Languages.
Establishes Department of Education grants to state or community-based organization that employ and serve minority populations to develop and implement a plan for assuring the availability of English as a second language instruction that effectively integrates information about the nature of the United States healthcare system, how to access care, and any special language skills that may be required for them to access and regularly navigate the system effectively. Title II could not provide recommendations for the following and an update is needed from the Department of Education as they administer ESL grants: “maintain current ESL instruction
efforts by using the additional funds to supplement rather than supplant any funds expended for ESL instruction in the State”.

Section 210. Implementation.
Clarifies that there is no state immunity under the 11th Amendment for failing to provide language access services and a rule of construction clarifying that this measure should not limit other federal financial assistance.

Section 211. Language access services.
Adds language access services, including oral interpretation and written translations, as a required category of Essential Health Benefits and employer-sponsored minimum essential coverage under the Affordable Care Act. Strengthens the regulations governing the processes for internal claims and appeals for health plans to provide oral interpretation and translated notices. Directs the HHS Secretary to modify the single streamlined application to collect the preferred spoken and written language for each household member for those applying for coverage under the Affordable Care Act and collect an annual report from Federal and State call centers on their implementation of language access services.

TITLE III—HEALTH WORKFORCE DIVERSITY

Section 301. Amendment to the Public Health Service Act
Establishes:
- A National Working Group on Workforce Diversity to review workforce diversity initiatives, identify successful program and practices, and examine development and implementation challenges;
- A technical clearinghouse for health workforce diversity within HHS;
- Grants to support scientists and researchers and promote the inclusion of underrepresented minorities in health professions;
- Grants to provide career support for non-research health professionals;
- Grants to expand research on the link between health workforce diversity and quality healthcare; and
- A health and health care disparities and inequities education program at HHS.

Section 302. Hispanic-Serving Health Professions Schools.
Establishes grants to Hispanic-serving health professions schools, including Regional Hispanic Centers of Excellence, for scholarships and financial assistance to recruit Hispanic individuals to enroll in and graduate from health professions schools.

Section 303. Loan repayment program of Centers for Disease Control and Prevention.
Reauthorizes through 2020 a program that permits HHS to repay up to $35,000 of educational loans for health professionals who agree to conduct prevention activities as employees of CDC and the Agency for Toxic Substances and Disease Registry.

Section 304. Cooperative agreements for online degree programs at schools of public health and schools of allied health.
Establishes cooperative agreements between HHS and schools of public health and schools of allied health to design and implement online degree programs (with priority to any school of public health or school of allied health that has an established track record of serving medically underserved communities).
Section 305. Sense of Congress on the mission of the National Health Care Workforce Commission.
Emphasizes that, in carrying out its duties, the National Health Care Workforce Commission should give attention
to the needs of racial and ethnic minorities; individuals with low socioeconomic status; individuals with
developmental and physical disabilities; and lesbian, gay, bisexual, and transgender populations.

Section 306. Scholarship and fellowship programs.
Creates:
- David Satcher Public Health and Health Services Corps grants to increase awareness among post-primary and
  post-secondary students of career opportunities in health professions (with priority given to entities with
diverse populations, with experience in health disparity elimination programs, that facilitate entry of
disadvantaged individuals into higher education institutions, and that provide services to assist disadvantaged
individuals in completing postsecondary education);
- Louis Stokes Public Health Scholars program to award scholarships to post-secondary students who seek a
  career in public health (with priority to students with disadvantaged background, who are admitted to a
  minority-serving institution, and have identified a health professional mentor and an academic advisor);
- Patsy Mink Health and Gender Research Fellowship program that awards research fellowships to post-
baccalaureate students to conduct research that will examine gender and health disparities and to pursue a
  career in the health professions (with priority given to applicants that are from disadvantaged backgrounds,
  have identified a mentor and academic advisor, and have secured a research assistant position);
- Paul David Wellstone International Health Fellowship program to award research fellowships to college
  students or recent graduates to advance their understanding of international health (with priority given to
  applicants that are from disadvantaged backgrounds and have identified a mentor and advisors);
- Edward R. Roybal Healthcare Scholar program to award grants to expose entering graduate students to the
  health professions (with priority given to entities that have experience with health disparity elimination
  programs, facilitate training in specified health professions fields, and provide services to assist individuals in
  completing postsecondary education).

Section 307. McNair Postbaccalaureate Achievement Program.
Amends the McNair program by requiring the Secretary of Education to coordinate with the Secretary of Health
and Human Services to ensure collaboration on programs that promote health workforce diversity and encourage
participants to consider health profession careers.

Section 308. Rules for determination of full-time equivalent residents for cost reporting periods.
Clarifies that, for the purposes of cost reporting periods, teaching hospitals may count all time residents spend in
approved residency programs, including the time residents spend on research, didactic teaching, and training in
public health departments. This eliminates regulatory barriers that prevented training programs from placing
residents in non-hospital settings.

Section 309. Developing and implementing strategies for local health equity.
To better integrate health equity efforts at universities and academic medical centers to increase health equity in
their locales, establishes grant programs through a collaborative effort among HHS, Education, and Labor to:
- Develop capacity at academic institutions to build an evidence base for successful strategies and to serve as
  national models of driving local health equity;
• Develop strategic partnerships between academic institutions and the communities in which they are situated; and
• Collect data and evaluate the programs’ effectiveness and to enable programs to adapt accordingly.

**Section 310. Loan forgiveness for mental and behavioral health social workers.**
Directs the Secretary of Education to cancel the balance of interest and principal due on any eligible Federal Direct Loan not in default for mental health and behavioral health social workers meeting certain loan repayment/service requirements.

**Section 311. Health Professions Workforce Fund.**
Establishes a mandatory Health Professions Workforce Fund to provide for expanded and sustained investments in the health professions and nursing workforce development programs under Title VII and Title VIII of the Public Health Service Act.

**Section 312. Findings, Sense of Congress related to graduate medical education.**
Emphasizes that eliminating the freeze on graduate medical education support under the Medicare program is critical to ensuring an appropriate supply of physicians to meet the nation’s health care needs, facilitating equitable access to health care, and mitigating disparities and inequities in health and health care.

**Section 313. Career support for skilled internationally-educated health professionals.**
Establishes a grant program to:
• provide services to assist unemployed and underemployed internationally-educated health professionals authorized to work in the United States to enter the American health workforce and find employment matching their skill and education;

• facilitate access to contextualized and accelerated courses on English as a second language;
• assist in the evaluation of foreign credentials;
• reduce barriers for internationally-educated health professionals to enter and advance in the health workforce; and
• educate employers on the abilities and capabilities of internationally-educated health professionals.

**TITLE IV—IMPROVEMENT OF HEALTHCARE SERVICES**

**Subtitle A – Health Empowerment Zones**

**Section 401. Short Title**

**Section 402. Findings.**

**Section 403. Designation of health empowerment zones.**
Defines eligibility for and requires HHS to designate at least 110 communities with disproportionate disparities in health status and healthcare as health empowerment zones, with at least one in each state, DC, and territory or possession.
Section 404. Assistance to those seeking designation.
Authorizes HHS to provide technical assistance and award a grant to assist with the formation of a community partnership, completion of a health assessment, or to prepare a request to be designated as a health empowerment zone.

Section 405. Benefits of designation.
Authorizes grants for initial implementation of a strategic plan.

Section 406. Definition.

Section 407. Authorization of appropriations.

Subtitle B—Other improvements of healthcare services
Chapter 1—Expansion of Coverage

Section 411. Amendment to the Public Health Service Act.
- Establishes grants for demonstration projects to improve the quality of and access to healthcare by health entities that provide patients with access to services regardless of their ability to pay and serve patient populations that are composed of uninsured, vulnerable populations, racial and ethnic minorities, or the limited English proficient;
- Requires HHS to designate centers of excellence at public hospitals and other health systems serving large numbers of minority patients;
- Requires HHS to provide direct financial assistance to health providers and centers in American Samoa, Guam, the Commonwealth of the Northern Mariana Islands, the United States Virgin Islands, Puerto Rico, and Hawaii.

Section 412. Removing Citizenship & Immigration Barriers to Access to Affordable Health Care under the ACA.
Retains existing eligibility rules for the Affordable Care Act’s insurance affordability programs, such as income and tax filing requirements, and eliminates eligibility criteria based on immigration or citizenship status.

Section 413. Study on the uninsured.
Requires HHS to study, in accordance with the standards under section 3101 of the Public Health Service Act, and report on the demographic characteristics - of the uninsured and the projected demographic characteristics of the population of individuals who will not have health insurance after the end of open enrollment or any special enrollment period.

Section 414. Medicaid payment parity for the territories.
Eliminates Medicaid funding limitations for Puerto Rico, the Virgin Islands, Guam, the Northern Mariana Islands, and American Samoa and provides parity in FMAP payments for the territories and insular possessions beginning in FY 2014.
Section 415. Extension of Medicare secondary payer.
Establishes a 42-month “coordination period” for patients with end-stage-renal disease and under a group health plan so that the group health plan is the primary payer for 42 months, after which Medicare becomes the primary provider.

Section 416. Border health grants.
Authorizes a grant program to address priorities and recommendations to improve the health of border area residents.

Section 417. Removing Medicare barrier to healthcare.
Makes eligible for Medicare an individual who is lawfully present in the United States.

Section 418. 100 percent FMAP for medical assistance provided by urban Indian health centers.
Amends section 1905 of the Social Security Act to include medical assistance provided by Indian health centers.

Section 419. 100 percent FMAP for medical assistance provided to a Native Hawaiian through a federally qualified health center or a Native Hawaiian healthcare system under the Medicaid program.
Provides 100 percent FMAP for Native Hawaiian treatment or care.

Chapter 2—Expansion of Access

Section 431. Grants for racial and ethnic approaches to community health.
Creates HRSA grants to assist communities in mobilizing and organizing resources in support of health effective and sustainable programs to reduce or eliminate health disparities experienced by racial and ethnic minorities. HHS will encourage grantees to share best practices, evaluation results, and reports with communities not affiliated with the grantees.

Section 432. Critical access hospital improvements.
- Eliminates the requirement that rural ambulance services be at least 35 miles from one another in order to qualify for Medicare reimbursement; for areas served by a community ambulance where ambulance transport is to or from the critical access hospital, the community ambulance would receive cost based payment by billing Medicare under arrangement through the hospital.
- Provides an alternative to the current 25 inpatient bed limit, under which states may elect to count 730 inpatient bed days at a CAH instead of 25 located at a CAH. Under current law, CAHs may have a maximum of 25 acute care inpatient beds (counting any hospital-type bed located in or adjacent to any location where the bed could be used for inpatient care), with exceptions for swing bed agreements, examination or procedure beds, stretchers, operating room tables, and others.

Section 433. Establishment of rural community hospital (RCH) program.
Establishes a rural community hospital program in which HHS can designate hospitals located in a rural area, having less than 51 acute care inpatient beds, and that makes available 24-hour emergency care services that can qualify for reimbursement of 101 percent of the reasonable costs of services provided.
Section 434. Medicare remote monitoring pilot projects.
Requires HHS to conduct pilot projects to provide incentives to home health agencies to utilize home monitoring and communications technologies that enhance health outcomes for Medicare beneficiaries and reduce expenditures.

Section 435. Rural health quality advisory commission and demonstration projects.
Establishes a commission to develop, coordinate, and facilitate implementation of a national plan for rural health quality improvement and five demonstration projects to implement and evaluate methods for improving the quality of healthcare in rural communities.

Section 436. Rural healthcare services.
Establishes grant programs for rural healthcare services outreach, rural health network development, delta rural disparities and health systems development, and small rural healthcare provider quality improvements.

Section 437. Community health center collaborative access expansion.
Facilitates cooperation between a rural health clinic and a community health center.

Section 438. Facilitating the provision of telehealth services across State lines.
Requires HHS to consult with states, physicians, healthcare practitioners, and patient advocates to encourage and facilitate the adoption of telehealth services under the Medicare program with multistate practitioner practice across state lines.

Section 439. Scoring of preventive health savings.
Requires CBO, upon request by the chairman or ranking member of either Budget Committee, to determine if a proposed measure would result in reductions in budget outlays in budgetary outyears through the use of preventive health and preventive health services.

Section 440. Sense of Congress.
Establishes Sense of Congress that maintenance of effort provisions of the Affordable Care Act for Medicaid and CHIP are critical for the protection of vulnerable populations, including communities of color, and must be strictly enforced.

Section 441. Repeal of requirement for documentation evidencing citizenship or nationality under the Medicaid program.
Repeals provisions of the Deficit Reduction Act of 2005 that require documentation of U.S. citizenship for Medicaid participants.

Section 442. Office of Minority Health in Veterans Health Administration of Department of Veterans Affairs.
Establishes Office of Minority Health in said Department.

Section 443. Access for Native Americans Under PPACA.
Makes consistent definition of “Indians” under the Affordable Care Act and Internal Revenue Code of 1986.

Section 444. Study of DSH payments to ensure hospital access for low-income patients.
No later than January 1, 2016, the Comptroller General of the United States shall evaluate and examine the continued need for payments to disproportionate share hospitals under section 1886(d)(5)(F) of the Social Security Act and section 1923 of such Act to ensure timely access to health care services for low-income patients after the expansion of coverage under Medicaid programs, as well as how such funding should be allocated among hospital and provide recommendations.

Section 445. Assistant Secretary of the Indian Health Service.
Establishes that any reference by law, regulation, document, paper, or other record of the Unites to the Director of the Indian Health Service be changed to reference the Assistant Secretary of the Indian Health Service.

Section 446. Reauthorization of the Native Hawaiian Health Care Improvement Act.
Amends the Native Hawaiian Health Care Improvement Act to include necessary funding through fiscal year 2019.

Section 447. Availability of non-English language speaking providers.
Amends Section 1311 of the Patient Protection and Affordable Care Act with respect of the provider’s ability to provide care in a language other than English either through the provider speaking such language or having a trained medical interpreter available.

Section 448. Access to essential community providers.
Amends Section 1311 of the Patient Protection and Affordable Care Act to increase the percentage of essential community providers and establish data and reporting requirements on essential community providers.

Section 449. Provider network adequacy in communities of color.
Amends Section 1311 of the Patient Protection and Affordable Care Act to include network adequacy standards, as established by the Secretary, which may include appointment wait time, transportation data on travel time and distance, extended hours of operation and coverage of services for enrollees through out-of-network providers at no additional cost when in-network providers are unable to comply with adequacy standards.

Section 450. Improving access to dental care.
Requires that GAO and HRSA each submit a report to congress on dental programs and dental shortage areas. Expands coverage for oral health services for federal programs clarifies payment standards.

TITLE V—IMPROVING HEALTH OUTCOMES FOR WOMEN, CHILDREN, AND FAMILIES

Section 501. Grants to promote positive health behaviors in women and children.
Authorizes HHS grant program to promote positive health behaviors for racial and ethnic minority women and children and to educate, guide, and provide experiential learning opportunities that target behavioral risk factors in medical underserved communities, including populations who are linguistically isolated. Grants may be used to support community health workers to educate and provide outreach regarding enrollment in health insurance including the State Children’s Health Insurance Program, Medicare, and Medicaid; to educate about health problems; to target behavioral risk factors; to promote positive health behaviors; to promote community wellness; and to educate and refer target populations for health services.
Section 502. Removing barriers to health care and nutrition assistance for children, pregnant women, and lawfully residing individuals.
Expands coverage of benefits under the Supplemental Nutrition Assistance Program by allowing people who are lawfully present in the United States to be eligible by removing barriers to nutrition assistance programs that are based on immigration status or date of entry into the United States. Expands eligibility for the Supplemental Nutrition Assistance Program for families with children. Ensures proper screening by providing a method that does not require unnecessary information that would restrict welfare and public benefits for aliens.

Section 503. Repeal of denial of benefits.
Reinstates food stamp benefits to individuals with drug-related convictions.

Section 504. Birth defects prevention, risk reduction, and awareness.
Directs CDC to establish and implement a birth defects prevention and public awareness program that includes a nationwide media campaign to increase awareness among health care providers and at-risk populations about pregnancy and breastfeeding information services. Grants for the provision of, or campaigns to increase awareness about, pregnancy and breastfeeding information services and grants for the conduct or support of surveillance of or research on maternal exposures and maternal health conditions.

Section 505. Uniform State maternal mortality review committees on pregnancy-related deaths.
Establishes grants to state departments of health to initiate Uniform State maternal mortality review committees on pregnancy related deaths. Provides incentives to states to develop a process for reporting pregnancy related deaths by health care providers and facilities and a reporting process available to family members of the deceased. Establishes research grants for finding, investigating, summarizing and reporting cases of pregnancy related or associated death. Sets out review committee membership and allows for regional review committees.

Section 506. Eliminating disparities in maternity health outcomes.
Requires all relevant agencies within HHS to conduct research into the determinants and distribution of health disparities in maternal health outcomes and improve the infrastructure to measure such disparities. Expands access to maternity services for vulnerable populations. Establishes a demonstration project to compare effective interventions to reduce maternity services disparities and outcomes and implement and assess effective interventions. Requires reporting of demonstration project results.

Section 507. Decreasing the risk factors for sudden unexpected infant death and sudden unexplained death in childhood.
Establishes a culturally competent public health awareness and education campaign at HHS to provide information focused on decreasing the risk factors for sudden unexpected infant death and sudden unexplained death in childhood.

Section 508. Reducing unintended teenage pregnancies.
Establishes demonstration grants to provide youth in communities at disproportionate risk for unintended teen pregnancy, in particular youth in racial or ethnic minority or immigrant communities, youth in the juvenile justice system, rural youth, and LGBT youth, information and skills to prevent unintended teenage pregnancies, build healthy relationships, and improve overall health and well-being. At least five percent of grants are designated to Indian tribes and tribal organizations. Directs HHS to award grants for multimedia campaigns to provide public education and increase public awareness regarding unintended teenage pregnancy and related social and emotional issues. Directs CDC to make grants for research on unintended teenage pregnancy, dating violence and sexual assault, and healthy relationships among youth at disproportionate risk. Establishes an interagency adolescent health workgroup at HHS.
Section 509. Gestational diabetes.
Directs CDC to develop a multisite gestational diabetes research project to expand and enhance surveillance data and public health research on gestational diabetes. Directs HHS to expand and intensify public health research on gestational diabetes. Directs CDC to award grants for demonstration projects to reduce the incidence of gestational diabetes, the recurrence of such disease in subsequent pregnancies, and the development of type-2 diabetes in women with a history of gestational diabetes. Directs CDC to work with state and Indian tribal-based diabetes prevention and control programs assisted by the CDC to encourage postpartum follow-up after gestational diabetes.

Section 510. Emergency contraception education and information programs.
Directs CDC to develop public information on emergency contraception, including, at a minimum, a description of emergency contraception and an explanation of the use, safety, efficacy, and availability of such contraception. Directs HRSA to develop and disseminate information on emergency contraception to health care providers, including pharmacists.

Section 511. Supporting healthy adolescent development.
Authorizes HHS to award grants to states to conduct comprehensive, age-appropriate and medically accurate sex education programs, including education on both abstinence and contraception for the prevention of teenage pregnancy and sexually transmitted diseases, including HIV/AIDS and viral hepatitis.

Section 512. Compassionate Assistance for Rape Emergencies.
Ensures that no federal funds are provided to a hospital under title XVIII of the Social Security Act or to a State, with respect to services of a hospital, under title XIX of such Act unless the hospital provides any woman who is a victim of sexual assault, is accompanied by someone who states the woman is a victim of assault, or whom hospital personnel have reason to believe is a victim of sexual assault, with medically and factually accurate and unbiased written and oral communication about emergency contraception.

Section 513. Access to Birth Control duties of pharmacies to ensure provision of FDA-approved contraception.
Amends Part B of title II of the Public Health Service Act to ensure that pharmacies that receive Food and Drug Administration-approved drugs or devices in interstate commerce: provide customers contraception that is in-stock without delay; locate or refer to a pharmacy of the customer’s choice if the contraception is out of stock; and/or order contraception when out of stock. Section 513 prohibits pharmacy staff from engaging in intimidating, threatening, harassing, obstructing, or deceiving behavior as related to the request for contraception.

Section 514. Additional focus area for the Office of Women’s Health.
Expands access to evidence-based quality maternity care services by: adding a focus area for the Office of Women’s Health on optimal maternity care; developing an interagency coordinating committee on the promotion of optimal maternity outcomes; directing consumer education campaigns; creating bibliographic database of systemic reviews for care of childbearing women and newborns; identifying maternity health professional shortage areas; expanding CDC prevention research centers program to include Centers on Optimal Maternity Outcomes; expanding models to be tested by Center for Medicare and Medicaid to include maternity care models; developing interprofessional maternity care educational models and tools; providing interprofessional training; and providing grants to professional organization to increase diversity in maternity care professions.

Section 515. Interagency coordinating committee on the promotion of optimal maternity outcomes.
Amends part A of Title II of the Public Health Service Act to establish the Interagency Coordinating Committee on the Promotion of Optimal Maternity Outcomes (ICCPOM). The ICCPOM shall guide policy and program development across the Federal Government with respect to promotion of optimal maternity care. The ICCPOM
should work with stakeholder groups and submit an annual report to Congress summarizing federal programs, policies, and data concerning maternal and infant health.

**Section 516. Consumer Education Campaign**
Amends Section 229 of the Public Health Service Act by establishing the development and implementation of a 4-year cultural and linguistic appropriate multimedia consumer education campaign that is designed to promote understanding and acceptance of evidence based maternity practices and models of care.

**Section 517. Bibliographic database of systematic reviews for care of childbearing women and newborns.**
Establishes an online bibliographic database identifying systematic reviews for care of childbearing women and newborns.

**Section 518. Maternity care health professional shortage areas.**
Amends Section 332 of the Public Health Service Act to establish designated maternity care health professional shortage areas; urban or rural areas that need not to conform to geographic boundaries of political subdivision.

**Section 519. Expansion of CDC prevention research centers program to include centers on optimal maternity outcomes.**
Establishes additional Prevention Research Centers administered by the CDC and be known as a Center for Excellence on Optimal Maternity Outcomes. Each center must incorporate the use of interdisciplinary providers and conduct research in service areas related to mental health, doula labor support, nutrition education, childbirth education, social work, physical and occupational therapy, substance abuse, and home visits.

**Section 520. Expanding models allowed to be tested by Center for Medicare and Medicaid Innovation to include maternity care models.**
Amends Section 1115A of the Social Security Act to include and promote evidence-based models of care that have been associated with reductions in maternal and infant birth disparities.

**Section 521. Development of interprofessional maternity care education models and tools.**
Directs the Secretary and Administrator for HRSA establish an Interprofessional Maternity Provider Education Commission to develop recommendations for standard physiologic maternity care curriculum, suggestions for multidisciplinary use of the curriculum, strategies to integrate and coordinate education across maternity care disciplines, and pilot demonstrations of interprofessional educational models. The secretary shall submit a report to Congress containing the recommendations by the Commission and make the report publicly available.

**Section 522. Including within inpatient hospital services under Medicare services furnished by certain students, interns, and residents supervised by certified nurse midwives.**
Amends Sections 1861(b) of the Social Security Act to include services in a hospital or osteopathic hospital furnished by students, interns, and residents supervised by certified nurse midwives.

**Section 523. Grants to professional organizations to increase diversity in maternity care professionals.**
Requires that the Secretary and Administrator of HRSA establish a grant program eligible to health professional organizations. Planning and implementation grants awards should not exceed $300,000 and $500,000, respectively. Grantees must submit a report to the Secretary containing information on the extent and distribution of workforce disparities and reasonable objectives and strategies to address such disparities.

**TITLE VI—MENTAL HEALTH**
Section 601. Coverage of marriage and family therapist services, mental health counselor services and substance abuse counseling services under part B of the Medicare program.
Expands coverage of marriage and family therapist services, mental health counselor services, and substance abuse counseling services under Medicare Part B to diversify the availability of mental health care services and expands the availability of benefits for rural areas.

Section 602. Minority Fellowship Program.
Authorizes the Minority Fellowship Program at SAMSHA to award contracts to provide financial support for graduate students, postdoctoral fellows, and residents in the professions of psychology, psychiatry, social work, psychiatric advanced practice nursing, marriage and family therapy and professional counseling. Authorize appropriations of $10,000,000 for FY12-FY16.

Section 603. Integrated Health Care Demonstration Program.
Creates grants to provide technical assistance and training regarding effective development and implementation of interprofessional health care teams.

Requires a study and report on the existing knowledge of mental and behavioral health disparities in racial and ethnic minority groups and recommendations for its expansion.

Section 605 - Health Professions Competencies to Address Racial and Ethnic Minority Mental Health Disparities
Grant program from SAMSHA to national organizations with direct responsibility for the educational development of mental health professionals.

- The purpose of the grant would be for the development and dissemination of curricula or core competencies to health professional educational programs addressing mental health disparities among racial and ethnic minority groups.
- Grants would be used in the training of students in the professions of social work, psychology, psychiatry, marriage and family therapy, mental health counseling, and substance abuse.

TITLE VII—ADDRESSING HIGH IMPACT MINORITY DISEASES

Subtitle A—Cancer

Section 701. Lung Cancer Mortality Reduction
States the importance of lung cancer mortality reduction as a national public health priority and the how a program coordinated by the Secretary of Health and Human Services is a national public health priority. Requires the implementation of a comprehensive Lung Cancer Mortality Reduction Program to achieve reduction of the mortality rate of lung cancer of at least 25 percent by 2017. Amends Subpart 1 of part C of Title IV of the PHSA (42 USC 285et seq.) Requires HHS to establish a Lung Cancer Advisory Board to monitor the program. Requires the Secretary to establish and implement an early disease research and management program targeted at the high incidence and mortality rates of lung cancer in minority and low-income populations.

Section 702. Expanding Prostate Cancer Research, Outreach, Screening, Testing, Access, and Treatment Effectiveness
Requires VA, DoD, and HHS to establish an Interagency Prostate Cancer Coordination and Education Task Force to (1) develop a summary of advances in prostate cancer research; (2) consider establishing a guidance to enable physicians to screen men over age 74; (3) share and coordinate information on federal research and program activities; (4) develop a comprehensive interagency strategy to evaluate factors that may be related to the etiology
of prostate cancer; and (5) develop a coordinated message on screening and treatment for prostate cancer for inclusion in federal health program educational and beneficiary materials. Requires the VA to submit recommendations to Congress. Creates a four-year telehealth pilot project to analyze the clinical outcomes and cost effectiveness associated with telehealth services in different geographic areas that contain high proportions of medically-underserved populations; the results of the pilot are to be submitted to Congress. Requires the Secretary of Veterans Affairs to develop a national education campaign with educational materials to encourage men to seek prostate cancer screening when appropriate.

Section 703. Improved Medicaid Coverage for Certain Breast and Cervical Cancer Patients in the Territories.
Enhances the Federal Medical Assistance Percentage (FMAP) for Puerto Rico, the Virgin Islands, Guam, the Northern Mariana Islands, and American Samoa.

Requires the Secretary of Health and Human Services to conduct demonstration projects, review the program design, and report to Congress no later than 2 years after the initial demonstration projects are implemented to ensure quality services are provided to individuals and to facilitate reduced disparities in early detection and the treatment of cancer.

Section 705. Reducing Cancer Disparities within Medicare.
Requires HHS to enter into an agreement with an entity that specializes in quality measures for cancer care. The entity is to develop a uniform set of measures to evaluate disparities in the quality of cancer care. HHS must specify the classes of Medicare providers of services and suppliers that would be required to publicly report quality measures.

Subtitle B—Viral Hepatitis and Liver Cancer Control and Prevention

Section 711. Viral Hepatitis and Liver Cancer Control and Prevention.
Requires HHS to develop and implement a plan for the prevention, control, and medical management of hepatitis B and hepatitis C. Elements of the program would include education and awareness programs; immunization, prevention, and control programs; epidemiological surveillance; research; and expanded support for underserved and disproportionately affected populations. Authorizes HHS to award grants or enter into contracts or cooperative agreements to carry out program activities. Amends PHSA Sc. 317N. Adds hepatitis to the illnesses for which the Substance Abuse and Mental Health Services Administration, in cooperation with the NIH and CDC, is required to develop educational materials and intervention strategies to reduce risks of the illnesses among substance abusers and individuals with mental illness and to develop appropriate mental health services.

Subtitle C—Acquired Bone Marrow Failure Diseases Research and Treatment Act

Section 721. Acquired Bone Marrow Failure Diseases
Establishes a registry to identify the incidence and prevalence of and to collect and store data on acquired bone marrow failure disease. Establishes an advisory committee to provide recommendations to the Secretary on the registry. Authorizes HHS grants, contracts, or cooperative agreements for the management, collection, and reporting of registry data.
Requires HHS to establish and coordinate outreach and informational programs targeted to minority populations affected by acquired bone marrow failure disease. Requires HHS to enter into cooperative agreements with entities to perform research on acquired bone marrow failure disease. Amends PHSA Title XVII Section 1707A. Requires HHS to award grants to improve diagnostic practices and quality of care for patients with acquired bone marrow failure disease.

**Subtitle D—Cardiovascular Disease, Chronic Disease, and Other Disease Issues**

**Section 731. Guidelines for Disease Screening for Minority Patients.**
Requires HHS to convene meetings to develop guidelines for disease screening for minority patient populations with a higher than average risk for many chronic diseases and cancers that are specified in this section.

**Section 732. CDC WISEWOMAN Screening Program.**
Authorizes 5 years of funding the Well-Integrated Screening and Evaluation for Women Across the Nation (WISEWOMAN) program that provides low-income women with CVD screening and lifestyle intervention services.

**Section 733. Report on Cardiovascular Care for Women and Minorities.**
Requires HHS to prepare an annual report to Congress on the quality of and access to care for women and minorities with heart disease, stroke, and other cardiovascular diseases.

**Section 734. Coverage of Comprehensive Tobacco Cessation Services in Medicaid and in ACA Essential Health Benefits.**
Expands comprehensive tobacco cessation coverage, which currently applies only to pregnant women enrolled in Medicaid, to all Medicaid recipients and assures that all available forms of evidence-based tobacco cessation – currently two forms of counseling and seven FDA-approved medications – are made available to Medicaid beneficiaries without co-pay, pre-authorization, annual or life-time caps.

**Section 735. Clinical Research Funding for Oral Health**
Requires the HHS Secretary to expand support of NIH research activities to improve the population’s oral health through prevention and management of oral diseases and conditions.

**Section 736. Participation by Medicaid Beneficiaries in Approved Clinical Trials**
Requires coverage of routine patient costs associated with participation in approved clinical trials, consistent with the benefits that would be provided under the State plan if the patient was not enrolled in an approved clinical trial.

**Subtitle E—HIV/AIDS**

**Section 741. Policy Statement**
It is the policy of the United States to achieve an AIDS-free generation and to (1) expand access to lifesaving antiretroviral therapy; (2) expand efforts to prevent HIV infection; (3) ensure laws, policies and regulations do not impede access to prevention, treatment and care; (4) accelerate research for more efficacious HIV prevention and treatment tools; and (5) respect the human rights and dignity of persons living with HIV/AIDS.
Section 742. Findings

Section 743. Additional Funding for AIDS Drug Assistance Program Treatments
In addition to funds authorized to carry out this subpart, authorizes such sums as may be necessary to carry out 2612(b)(3)(B) and 2616, for three years.

Section 744. Enhancing the National HIV Surveillance System
Requires the Secretary of HHS to make grants to States to help integrate public health surveillance systems into electronic health records.

Section 745. Evidence-Based Strategies for Improving Linkage To and Retention In Appropriate Care
Requires the Secretary of HHS, in collaboration with other federal Agency heads, to identify evidence-based strategies most effective at addressing the multifaceted issues that impede disease status awareness and linkage to and retention in appropriate care. Requires the Secretary to support the wide-scale implementation of the evidence-based strategies identified, including incorporating such strategies into health care coverage supported by the Medicaid program under title XIX of the Social Security Act (42 U.S.C. 1396 et seq.), the program under title XXVI of the Public Health Service Act (42 U.S.C. 300ff-11 et seq.; commonly referred to as the ‘Ryan White HIV/AIDS Program’), and health plans purchased through an American Health Benefit Exchange established pursuant to section 1311 of the Patient Protection and Affordable Care Act (42 U.S.C. 18031). Requires the Secretary to submit a report on the status of these activities not later than one year from date of enactment.

Section 746. Improving Entry Into and Retention In Care and Antiretroviral Adherence for Persons with HIV
Expresses the sense of the Congress regarding the benefits of scientific advances in AIDS research. Requires the Secretary (through NIH) to expand, intensify, and coordinate operational and translational research and other activities of the NIH regarding methods to: (1) increase adoption of evidence-based adherence strategies within HIV care and treatment programs; (2) to increase HIV testing and case detection rates; (3) to reduce HIV-related health disparities; (4) to ensure that research to improve adherence to HIV care and treatment programs address the unique concerns of women; (5) to integrate HIV/AIDS prevention and care services with mental health and substance use prevention and treatment delivery systems; and (6) to increase knowledge on the implementation of pre-exposure prophylaxis (PrEP).

Section 747. Services to Reduce HIV/AIDS in Racial and Ethnic Minority Communities.
Authorizes the Secretary of HHS to make grants to public health agencies and faith-based organizations to conduct (1) outreach activities related to HIV/AIDS prevention and testing activities; (2) HIV/AIDS prevention activities; and (3) HIV/AIDS testing activities.

Section 748. Minority AIDS Initiative
Directs the Secretary of HHS to expand the Minority HIV/AIDS Initiative at HHS.

Section 749. Health Care Professionals Treating Individuals with HIV/AIDS
Directs the Secretary of HHS, working through HRSA, to increase the capacity of the health workforce focusing primarily on HIV/AIDS to meet the demand for culturally competent care. Authorizes grant awards for any of the following:
(1) Development of curricula for training primary care providers in HIV/AIDS prevention and care, including routine HIV testing; (2) Support to expand access to culturally and linguistically accessible benefits counselors, trained peer navigators, and mental and behavioral health professionals with expertise in HIV/AIDS; (3) Training health care professionals to provide care to individuals with HIV/AIDS; (4) Development of policies for providing culturally relevant and sensitive treatment to individuals with HIV/AIDS, with particular emphasis on treatment to racial and ethnic minorities, men who have sex with men, and women, young people, and children with HIV/AIDS; (5) Development and implementation of programs to increase the use of telehealth to respond to HIV/AIDS-specific health care needs in rural and minority communities, with particular emphasis given to medically underserved communities and insular areas; (6) Evaluating interdisciplinary medical provider care team models that promote high quality care, with particular emphasis on care to racial and ethnic minorities; and (7) Training health care professionals to make them aware of the high rates of chronic hepatitis B and chronic hepatitis C in adult racial and ethnic populations, and the importance of prevention, detection, and medical management of hepatitis B and hepatitis C and of liver cancer screening.

Section 750. HIV/AIDS Provider Loan Repayment Program
Authorizes partial provider loan repayment programs for physicians, nurse practitioners and physician assistants who agree to serve as a medical provider for at least two years in a Ryan White or Title X funded facility with a critical shortage of doctors, or in an area with a high incidence of HIV/AIDS.

Section 751. Dental Education Loan Repayment Program
Authorizes HHS to provide dental education loan repayment for dentists who agree to serve for at least two years at a facility with a critical shortage of dentists in an area with a high incidence of HIV/AIDS.

Section 752. Reducing New HIV Infections Among Injecting Drug Users
Expresses the sense of the Congress that providing sterile syringes and sterilized equipment to injecting drug users substantially reduces risk of HIV infection, increases the probability that they will initiate drug treatment, and does not increase drug use. Authorizes the Secretary to provide grants and technical assistance for the purpose of reducing the rate of HIV infections among injecting drug users through a comprehensive package of services for such users, including the provision of sterile syringes, education and outreach, access to infectious disease testing, overdose prevention, and treatment for drug dependence.

Section 753. Support for Expansion of Comprehensive Sexual Health and Education Programs
Expresses the sense of the Congress regarding the characteristics and components of federally funded sexual education programs. Authorizes several grant programs (for five years) to provide adolescents, as well as elementary and secondary students with comprehensive sex education.

Section 754. Report on Impact of HIV/AIDS In Vulnerable Populations
Requires the Secretary of HHS to submit an annual report to Congress and the President regarding the impact of HIV/AIDS for racial and ethnic minority communities, women, and youth aged 24 and younger.

Section 755. National HIV/AIDS Observance Days
Expresses the sense of the Congress that national observance days should be held to highlight the impact of HIV/AIDS on communities of color.
Section 756. Review of All Federal and State Laws, Policies and Regulations Regarding the Criminal Prosecution of Individuals for HIV related Offenses
Requires the Attorney General, the Secretary of HHS, and Secretary to Defense acting jointly to initiate a national review of Federal and State laws, policies, regulations, and judicial precedents and decisions regarding criminal and related civil commitment cases involving people living with HIV/AIDS, including the Uniform Code of Military Justice. The Attorney General is required to submit a report to Congress to address whether laws place a unique or additional burden on people living with HIV/AIDS, and to develop best practice recommendations for States.

Section 757. Repeal of Limitation Against Use of Funds for Education or Information Designed to Promote or Encourage, Directly, Homosexual or Heterosexual Activity or Intravenous Substance Abuse.

Section 758. Expanding Support for Use of Condoms in Prisons
Provides authorization to allow community organizations to provide STI counseling, STI prevention education, and sexual barrier protection devices in federal correctional facilities. Requires the Attorney General to develop and implement a strategy to reduce the prevalence and spread of STIs in federal and state correctional facilities.

Section 759. Automatic Reinstatement or Enrollment in Medicaid for People Who Test Positive for HIV Before Reentering Communities
Allows automatic enrollment or reinstatement in Medicaid if an individual is scheduled to be released from a public institution due to the completion of sentence, not less than 30 days prior to the scheduled date of the release; and if an individual is to be released from a public institution on parole or on probation, as soon as possible after the date on which the determination to release such individual was made, and before the date such individual is released.

Section 760. Stop AIDS in Prison
Requires the Bureau of Prisons to develop a comprehensive policy to provide HIV testing, treatment, and prevention for inmates within the correctional setting and upon reentry.

Section 761. Support Data System Review and Indicators for Monitoring HIV Care
Requires the Secretary of HHS to work with other Agency heads to expand and coordinate efforts to align metrics across agencies and modify Federal data systems to incorporate core measures as a way of monitoring the quality of HIV care, mental health, substance abuse, and supportive services.

Section 762. Transfer of Funds for Implementation of National HIV/AIDS Strategy
Allows the Secretary of HHS to transfer up to 1 percent of discretionary appropriations made to HHS, to the National HIV/AIDS strategy. The Secretary must provide Congress with at least 30 days of notice.

Section 763. HIV Integrated Services Delivery Model Demonstration
Requires a 3-year, multi-agency demonstration project that is designed to integrate services and funding under the Medicare and Medicaid programs, under HIV-related programs conducted by the CDC, and under the Ryan White HIV/AIDS Program, to reduce new HIV infections, to increase the proportion of people who know their status, to increase access to care, to improve health outcomes, to reduce HIV-related health disparities among Medicaid and Medicare beneficiaries, and to reduce the cost of care provided to HIV positive Medicare and Medicaid beneficiaries.
Requires the President to submit a report to Congress to document the progress made in achieving Goal 4 (improved coordination) of the National HIV/AIDS Strategy.

Subtitle F—Diabetes

Section 771. Research, Treatment, and Education
Amends the Public Health Service Act to require the Director of NIH to provide for (1) ongoing research and other activities with respect to prediabetes and diabetes in minority populations; and (2) inclusion of minority participants in clinical trials. Requires the Diabetes Mellitus Interagency Coordinating Committee to prepare and submit to Congress a report on the federal research and public health activities with respect to prediabetes and diabetes in minority populations as well as a comprehensive federal strategic plan to address prediabetes and diabetes in minority populations. Requires the Director of NIH, through the National Institute on Minority Health and Health Disparities and the National Diabetes Education Program, to provide for: (1) health care professionals’ mentoring; and (2) minority health professionals’ participation in diabetes-focused research programs. Requires the Director to make grants for a pipeline from high school to professional school that will increase minority representation in diabetes-focused health fields.

Section 772. Research, Education and Other Activities
Requires the Secretary of HHS, acting through the Director of CDC to: (1) enhance the National Health and Nutrition Examination Survey to better understand the prevalence of diabetes in certain populations and to educate the public on the causes and effects of diabetes in minority populations; (2) direct the Division of Diabetes Translation to carry out demonstration projects for diabetes prevention, develop a strategic plan to reduce diabetes in minority populations, support the implementation of the National Diabetes Prevention Program in underserved areas highly impacted by diabetes; (3) educate the public on the causes and effects of diabetes in minority populations; and (4) carry out diabetes health promotion and prevention programs for minority populations.

Section 773. Research, Education, and Other Activities
Directs the Secretary, acting through the Administrator of HRSA, to educate health professionals on the causes and effects of diabetes in minority populations. Gives priority to diabetes-focused grants and adds minority populations to the list of vulnerable populations under the primary care training and enhancement program. Develops a diabetes focus with the National Health Service Corps Scholarship Program to improve care in underserved areas highly impacted by diabetes.

Section 774. Research, Education, and Other Activities
Directs the Secretary, acting through the Indian Health Service, to conduct and support research and other activities with respect to diabetes and to coordinate data collection on diabetes treatment and prevention services by health care professionals to the American Indian population.

Section 775. Updated Report on Health Disparities
Requires the Secretary to enter into an arrangement with the Institute of Medicine (IOM) under which the IOM will update their landmark 2002 report entitled “Unequal Treatment: Confronting Racial and Ethnic Disparities in Health Care.
Subtitle G—Lung Disease

Section 776. Expansion of the National Asthma Education and Prevention Program
Requires HHS to convene a working group to develop a report to Congress that catalogs the asthma prevention, management, and surveillance activities of the federal government and other entities.

Section 777. Asthma-related Activities of the CDC
Amends the authority for CDC to provide information and education to the public, develop state asthma plans, compile data, and coordinate data collection related to asthma.

Section 778. Influenza and Pneumonia Vaccination Campaign
Enhances the program to increase the number of people vaccinated each year for influenza and pneumonia.

Section 779. Chronic Obstructive Pulmonary Disease Action Plan
Requires CC to conduct, support, and expand public health strategies, prevention, diagnosis, surveillance, and public and professional awareness activities regarding chronic obstructive pulmonary disease. Requires the development of a national action plan; public education and awareness activities; grants to reduce the burden of the disease; coordination with HIS, HRSA, and the VA to develop pilot programs; and improve techniques and identify best practices.

Subtitle H – Osteoarthritis and Musculoskeletal Diseases

Section 781. Findings

Section 782. Osteoarthritis and Other Musculoskeletal Health-Related Activities of the CDC
Directs the HHS Secretary, acting through the Centers for Disease Control and Prevention, to educate the public on the causes, ways to prevent, and effects of arthritis and musculoskeletal conditions on minority patient populations and the effects on other comorbidities, including obesity, hypertension, and cardiovascular disease. Authorizes appropriations of “such sums as necessary” for FY2017 and beyond to carry out this section.

Section 783. Grants for Comprehensive Osteoarthritis and Musculoskeletal Disease Health Education within Health Professions Schools
Authorizes grants for comprehensive arthritis and musculoskeletal health education within health professions schools.

Section 784. Report on Impact of sleep and circadian health disorders in vulnerable & racial/ethnic populations
Requires the HHS Secretary to submit an annual report on the impact of sleep and circadian health disorders in vulnerable and racial/ethnic populations.

Subtitle I – Sleep and Circadian Rhythm Disorders

Section 791. Short Title: Findings
Section 792. Sleep and Circadian Rhythm Disorders Research Activities of the NIH
Encourages the National Institutes of Health to expand on current research activities addressing sleep health disparities and to implement the ‘NIH Sleep Disorders Research Plan.’ Authorizes appropriations of “such sums as necessary” for FY2017 and beyond to carry out this section.

Section 793. Sleep and Circadian Rhythm Health Disparities Related Activities of the CDC
Requires the Centers for Disease Control and Prevention to conduct, support, and expand public health strategies, prevention, diagnosis, surveillance, and public and professional awareness activities regarding sleep and circadian rhythm disorders that are culturally and linguistically appropriate for minority populations. Authorizes appropriations of “such sums as necessary” for FY2017 and beyond to carry out this section.

Section 794. Grants for Comprehensive Sleep and Circadian Health Education within Health Professions Schools
Authorizes grants for comprehensive sleep and circulation education within health professions schools.

TITLE VIII—HEALTH INFORMATION TECHNOLOGY
Subtitle A—Reducing Health Disparities through Health IT

Section 801. HRSA assistance to health centers for promotion of health IT.
Expands and intensifies HRSA’s programs and activities to provide technical assistance and resources to health centers to adopt and meaningfully use certified electronic health record (EHR) technology for the management of chronic disease and health conditions and reduction of health disparities.

Section 802. Assessment of impact of Health IT on racial and ethnic minority communities; outreach and adoption of Health IT in such communities.
Requires ONC to assess and report on the level of use and accessibility of EHRs in racial and ethnic minority communities, including people with disabilities in these groups, and the Institute of Medicine to report on the impact of health IT in racial and ethnic minority communities. Additionally requires HHS to collect the races and ethnicities of providers attesting to the EHR Incentive Program and for ONC to evaluate the races and ethnicities of the providers utilizing EHRs, as well as the populations served by those providers, stratified by disparity variables.

Subtitle B—Modifications to achieve parity in existing programs

Section 811. Extending funding to strengthen the Health IT infrastructure in racial and ethnic minority communities.
Expands the mission, duties, resources, and general authorities of the Secretary through Fiscal Year 2021 to target racial and ethnic minority communities for the use of health IT to collect data, improve health outcomes, and reduce disparities.

Section 812. Prioritizing regional center assistance to racial and ethnic minority groups.
Directs Regional Extension Centers (RECs) to prioritize education and assistance to providers that predominantly serve minority groups in a region and requires RECs to report on status of outreach and assistance to providers.
that serve predominantly racial and ethnic minority groups to the biennial evaluation panel, which must include at least one patient or family caregiver and a representative of a minority-serving institution. Additionally requires federal funding to extend the functions of the RECs, provided they receive a positive annual review by the annual review panel appointed by the Secretary.

Section 813. Extending competitive grants for the development of loan programs to facilitate adoption of certified EHR technology by providers serving racial and ethnic minority groups.

Allows States and Tribes to apply for competitive grants for the development of loan programs to facilitate adoption of certified EHR technology by providers that serve predominantly racial and ethnic minority communities.

Section 814. Authorization of appropriations.

Extends authorization for appropriations from 2017 to 2021 to correspond to the EHR Incentive Program.

Subtitle C—Additional Research and Studies

Section 831. Data collection and assessments conducted in coordination with minority-serving institutions.

Requires the National Coordinator for Health IT to develop and implement a health IT impact assessment program in coordination with a minority-serving institution (such as an historically Black college or university, an Hispanic-serving institution, a tribal college or university, or an Asian American, Native American and Pacific Islander-serving institution with an accredited public health, health policy or health services research program) to measure the effects of adoption and use of health IT in minority communities and report to Congress with respect to this assessment program on an annual basis.

Section 832. Study of health information technology in medically underserved communities.

Requires HHS to enter into agreement with the IOM (or another appropriate public or nonprofit private entity) to conduct a study and report to Congress on the development, implementation, and effectiveness of health IT within medically underserved areas. The study shall identify barriers to implementation, examine the impact on care quality and cost reduction in medically underserved areas, examine the impact of health IT on improving health care-related decisions by both patients and providers, identify best practices, assess the feasibility and costs associated with health IT, identify providers in medically underserved areas electing not to adopt EHRs and determine what barriers exist for those providers, and examine urban and rural health systems to determine the impact that health IT may have on the capacity of primary care providers in those systems.

Subtitle D—Closing Gaps in Funding to Adopt Certified EHRs

Section 841. Extending Medicaid EHR incentive payments to rehabilitation facilities, long-term care facilities, and home health agencies.

Extends Medicaid EHR incentive payments to rehabilitation facilities, long-term care facilities, and home health agencies.
Section 842. Extending physician assistant eligibility for Medicaid electronic health record incentive payments.
Extends eligibility for Medicaid incentive payments for the adoption and meaningful use of certified electronic health records to physician assistants providing primary care.

TITLE IX—ACCOUNTABILITY AND EVALUATION

Section 901. Prohibition on discrimination in Federal assisted health care services and research programs on the basis of sex, race, color, national origin, marital status, familial status, sexual orientation, gender identity, or disability status.

Section 902. Treatment of the Medicare Section B program under title VI of the Civil Rights Act of 1964. Clarifies that a payment under Medicare Section B is to be considered a grant, and not a contract of insurance or guaranty.

Section 903. Accountability and Transparency within the Department of Health and Human Services. Establishes an Office of Health Disparities to ensure that the health programs, activities, and operations of health entities that receive federal financial assistance are abiding by the prohibition on discrimination. Requires HHS to establish civil rights compliance officers in each agency that administers health programs. Adds “sexual orientation and gender identity” to the list of attributes (already including age, race, language, sex, etc.) that all recipients of federal financial assistance under federal health programs must serve without discrimination.

Section 904. United States Commission on Civil Rights. Requires DOJ and HHS to coordinate activities carried out in health care and correctional facilities toward eliminating health disparities between the general population and racial and ethnic minorities.

Section 905. Sense of Congress concerning full funding of activities to eliminate racial and ethnic health disparities. Expresses the sense of Congress that adequate funding should be allocated for health disparity elimination programs because:
- The health status of the American populace is declining;
- Racial and ethnic minority communities have the poorest health status and face substantial barriers to health care;
- LGBT populations experience significant personal and structural barriers to obtaining quality health care; and
- Efforts to improve this situation have been limited by inadequate resources.
Section 906. GAO and NIH Reports.
Requires GAO to study the racial and ethnic diversity of all those involved in grantmaking (applicants, grantees, and grantmakers) of NIH grants. Requires NIH to report on the progress of expanded planning, coordination, review and evaluation authority of the National Institute on Minority Health and Health Disparities. Requires a GAO report on the recipients of PPACA funding looking at how funds have gone to community based organizations working on enrollment by racial and ethnic diversity and the impact of such community based organizations enrollment efforts on the insurance status of their communities. Requires Annual report from the Director of the National Institute on Minority Health and Health Disparities on the progress made by NIH to reduce health disparities.

TITLE X—ADDRESSING SOCIAL DETERMINANTS AND IMPROVING ENVIRONMENTAL JUSTICE

Section 1001. Definitions.
This section defines social determinants of health "as" the circumstances in which people are born, grow up, live, work, and age, as well as systems put in place to deal with illness” and distinguishes “social determinants” from other determinants of health.

Section 1002. Findings.
This section provides specific examples illustrating the nexus between the unequal distribution of the social determinants of health and health inequities across four categories prioritized by Healthy People 2020: (1) neighborhoods and the built environment; (2) social and community context; (3) education; and (4) economic stability. These findings are intended to capture pressing health disparities affecting minority communities that are caused by or correlated with non-traditional health factors. African American, Asian American, Native American, Lesbian, Gay, Bisexual, and Transgender individuals, and low-income children are among the particular populations covered in this section.

Section 1003. Health Impact Assessments.
This section establishes a program at the Centers for Disease Control and Prevention in collaboration with the Department of Housing and Urban Development, Department of Transportation, and the Department of Agriculture to administer grants to states to conduct Health Impact Assessments. These assessments aim to ensure that local, state, tribal, and federal government consider the impact state-sponsored proposed activities have on people’s health. Criteria are provided with which to evaluate how proposed activities affect health outcomes. Additionally, this section creates a research grant program on the built environment and its influence on human health.

Section 1004. Implementation of recommendations by Environmental Protection Agency.
This section requires the Environmental Protection Agency to follow the Inspector General’s recommendations related to environmental justice reviews of its programs, policies, and activities. These recommendations include devoting more attention to environmental justice when developing clean air rules and implementing a federal action plan reducing exposure to radon, particularly within low-income and minority families.
Section 1005. Grant program.
This section establishes a new grant program at the Centers for Disease Control and Prevention for state and local coalitions, including public health departments, health care providers, academic institutions, and child-serving institutions, to conduct environmental health improvement activities. These activities are intended to address the root causes of chronic diseases disproportionately affecting racial and ethnic minorities and improve the built environment of communities.

Section 1006. Additional research on the relationship between the built environment and the health of community residents.
This section establishes a new grant program to conduct and coordinate research on the built environment and its influence on individual and population-based health.

Section 1007. Environment and public health restoration.
This section describes changes to law and regulations since 2001 that have negatively impacted public health and environment. This section sets forth a partnership between the federal government and other authorities in order to “act as a steward of the environment for the benefit of public health, to maintain air quality and water quality, to sustain the diversity of plant and animal species, to combat global climate change, and to protect the environment for future generations to enjoy.” It also requires the National Academy of Sciences to complete a report on the impact on public health, air quality, water quality, wildlife, and the environment of specified regulations, laws, and proposed laws.

Section 1008. GAO report on health effects of Deepwater Horizon oil rig explosion in the Gulf Coast.
Requires GAO to conduct a study on the type and scope of health care services administered through the Department of Health and Human Services addressing the provision of health care to racial and ethnic minorities affected by the explosion of the mobile offshore drilling unit Deepwater Horizon that occurred on April 20, 2010. Requires that GAO report on the type, size, and scope of programs administered by HHS that focus on provision of health care to communities in the Gulf Coast, identify the merits and disadvantages associated with each program, perform an analysis of the costs and benefits of the programs, and determine whether there is any duplication of programs. Requires that GAO report no later than 180 days after the enactment of this ACT to report its findings and recommendations to Congress for improving access to health care for racial and ethnic minorities.
